Summary:

Haigh-Farr is a premier antenna design, manufacturing and test house developing products used across all platforms in the aerospace industry including missions to Mars, the International Space Station and products fielded to the U.S. Military supporting the warfighter. In our over 50-year history we have enjoyed steady, planned growth. In 2021, Haigh-Farr plans to further grow our team and capabilities to meet increasing demand and to expand into new markets and antenna technologies.

Haigh-Farr is seeking a qualified candidate to fill a IT System Engineer role within the IT and Information Security Team. The candidate will provide engineering services focusing on design and support of an infrastructure solution given a set of system & IT security requirements, implementation, documentation, and training. This role will support both classified and unclassified Information Systems.

Responsibilities:

- Manage and monitor all installed systems and infrastructure
- Install, configure, test and maintain operating systems, application software and system management tools
- Manage and monitor system configurations, including patching, baselines, change management and security alerts
- Proactively ensure the highest levels of systems and infrastructure availability
- Maintain security, backup, and redundancy strategies
- Write and maintain custom scripts to increase system efficiency and lower the human intervention time for any tasks
- Participate in the design of information and operational support systems
- Analyze system requirements that define the technical baseline and verify the technical baseline
- Develop and manage system baseline configurations for all systems
- Provide 2nd and 3rd level support for the IS Help Desk

- Liaise with vendors and other IT personnel for problem resolution

Qualifications:

- Must be able to work in both classified and unclassified information systems; ability to hold a security clearance

- Experience with IS configuration management standards.

- Flexible/easily adaptable within a dynamic work environment that may require surge efforts for new work supporting other projects.

- 3-5 years of SQL experience preferred

- U.S. citizenship required, with ability to possess a security clearance

Why should you join Haigh-Farr?
