

# Test Department Manager

## **Summary:**

Haigh-Farr is a premier antenna design, manufacturing and test house developing products used across all platforms in the aerospace industry including missions to Mars, the International Space Station and products fielded to the U.S. Military supporting the warfighter. In our over 50-year history we have enjoyed steady, planned growth. In 2020, Haigh-Farr plans to further grow our team and capabilities to meet increasing demand and to expand into new markets and antenna technologies.

Haigh-Farr is seeking a Test Department Manager with experience in RF component test. The successful candidate will not only have a strong background in test but be able to manage and oversee the test operations department. Mature and self-directed, the Test Department Mgr. will supervise and manage assigned tasks to a successful completion.

## **Responsibilities:**

- Manage both internal and external test schedule coordinating with the Project Coordinator, Production and Engineering.
- Supervise/Perform testing to include: VSWR measurements, pattern measurements, gain and isolation measurements, thermal cycling, vibration, shock and required external environmental tests (i.e., vibration, shock, humidity, etc).
- Generate test procedures and reports.
- Work with Engineering in the development of required test fixtures.
- Keep equipment operational by coordinating maintenance, repair and calibration services.
- Ensure test technicians have a clear direction and expected completion of tests each day.
- Supervise test technicians on a technical/scheduling level
- Ensure all tests are performed in accordance to the test procedures
- Ensure all testing is complete as scheduled (Occasional nights and Weekends may be necessary)

# Test Department Manager

- Develop new test protocol and processes to ensure all requirements are met

## **Knowledge & Skills:**

- Experience testing antennas in an anechoic chamber and operating RF Network Analyzers.
- BS in Mechanical Engineering with related manufacturing and test experience.
- Excellent computer skills, proficient in Excel, Word, PowerPoint, and Project.
- Independent, self-starter with ability to take a lead role in managing test operations.

## **Qualifications:**

- BS in Mechanical Engineering
- Working in a Mfg. environment and test environment
- U.S. Citizenship Required
- Ability to possess a security clearance

## **Why should you join Haigh-Farr?**
